

TALENT INTERVIEW

Paths to support the management of human resources.

The goal is to understand the drivers and strategies to increase job satisfaction, in order to motivate, grow and keep talents.

Some of the activities we recommend: individual interviews with company staff using the "Purpose & Talent" method; support to managers for constructing effective "stay interviews" and internal mentorship programs; development of a Talent Directory, which collects the biographies of all the company's members - on the basis of the interviews - to create a sense of belonging and strengthen internal connections; construction of a preliminary report to build an Organization chart and a Talent Constellation.
